### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

While it is known in the art to provide a filter with first and second end disks having a guide opening, a filter medium between the disks (see, for example, US Pat No 5,108,381 to Kolozsi) and it is known in the art to provide a return line to a filter (see, for example, US Pat No 5,879,552 to Bradfield), in the examiner's opinion, the prior art fails to teach or fairly suggest the instantly claimed invention. The invention provides the benefit of constructing a return line independently of the filter element and integrating the return line into the filter element when the filter element is assembled such that the end disks need to have only through openings and otherwise no changes have to be made to the filter element itself.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
